

the *mobitec* spirit

Since 1990, Mobitec has been synonymous with the creation of moments of well-being. These are not just brief instances; they are precious snapshots of life. Shared laughter that echoes around a dining table, the spark of inspiration in seminars, the contentment of savoring a meal at a favorite restaurant — we are proud to be a part of these experiences. Our commitment lies in crafting high-quality seating and tables that do not just occupy a space but enhance it, ensuring they perfectly complement the ambiance of any setting. At Mobitec, we find the ideal balance between design, comfort, customizability, and durability, because we believe well-being is multifaceted: It is about the aesthetic appeal and the feeling it evokes.

From our foundation, the human element has been central to Mobitec's spirit. We prioritize well-being at every stage of our process — not just for our customers, but extending that care to our teams, partners, and suppliers. This holistic approach to well-being is what sets Mobitec apart, ensuring that every interaction is meaningful, and every moment shared is a testament to our commitment to quality, comfort, and the collective happiness of our community.

— Anne Rom & Marie Claeys

about
moments
of
well-being

An aerial photograph of Athens, Greece, taken at dusk. The Acropolis is illuminated and stands prominently on a hill in the background. The city below is a dense collection of buildings with warm, glowing lights from windows and streets. A winding road is visible in the lower center. The sky is a soft mix of orange and blue. Decorative white circles and a wavy line are overlaid on the image.

Embark on a captivating journey with our new catalog, "About moments of well-being." It's more than just a furniture collection; it's a living diary capturing the essence of our tables and chairs in the breathtaking landscapes of Athens and Peloponnese.

In the golden rays of the November sun, we embarked on a journey, to place our furniture in unexpected locations – from the gentle lull of the sea to the winding paths of an exclusive vineyard.

This catalog is a love letter to the magic that unfolds when exquisite design meets breathtaking landscapes.

Each image tells a story, not only of a specific place on a particular day but also of people who shared these moments with us. Here, furniture isn't just a product; it's a living witness to unforgettable moments.

Flipping through the pages becomes a journey of discovery, a promise of well-being and comfort that Mobitec brings to every space.

"About moments of well-being" is the journey itself, inviting you to partake in these moments. Feel the breeze, hear the rustling, and let yourself be inspired by the beauty.

Welcome to Mobitec, where furniture isn't just created but experienced.

Mobitec is a belgian family company producing tables and seats of high durability and comfort, which are distinguished by their design and great customizability. Our furniture can be found in homes, restaurants, hotels, offices, and care institutions across Europe. With our distribution partners, we have the privilege of furnishing prestigious locations like the main restaurant at Roland Garros, the offices of the European Commission, a residence of Omar Sy and senior residences affiliated with the Korian Group.

Our offices are situated in Eupen, and our three production sites are located in Poland. The company employs about 700 people. We produce on demand, with no minimum order quantity, and we are focused on the personalization of the products. We produce about 200.000 chairs and 15.000 tables yearly. Our products are sold in more than 10 European countries, through a network of distributors and agents.

The company was founded by Herbert Rom in 1990 when he decided to step back from his previous enterprise, Rom, to launch Mobitec. This new endeavor

allowed him to further pursue his creative aspirations within the furniture manufacturing sector. At Mobitec, he introduced the innovative concept of cover chairs, which rapidly gained market success due to their affordable prices, contemporary design, and effective sales strategy. Concurrently, Herbert Rom replicated his earlier strategy by establishing production facilities in Poland for Mobitec, which evolved to become more advanced and sustainable with each passing year.

In 2000, the leadership baton was passed to his daughter Anne, whose engineering background

endowed the company with significant technical expertise and organizational progress. Her stewardship has enabled Mobitec to flourish further, positioning it as a leading furniture brand in Europe today.

In 2020, Marie Claeys, Anne's daughter, and Herbert's granddaughter, joined the company. Mobitec continues its journey with the same values.

Following the passing of Herbert Rom in 2016, his profound and enduring values continue to resonate within the company as Anne Rom explains "Our father was someone who truly lived his values very intensely. Beyond the belief that work should be enjoyable—a sentiment encapsulated in our spirit, 'together we create moments of well-being'—there were several values of paramount importance to him that continue to be central to our ethos today: Trust – that was his most important value. Trust in the future. That one does not need to be afraid. A kind of basic trust in the future and in people themselves. Respect – towards nature, but also towards people. Originality – thinking outside the box and doing things differently than others. At Mobitec, for example, there was an in-house designer involved from the beginning.

Additionally, we hold the value "Family" close to our hearts, recognizing the importance of fostering connections and creating a supportive atmosphere that reflects a family-like bond within our team. Continuity also plays a crucial role, highlighting our commitment

to preserving our legacy and fostering innovation for future generations. It's our hope that by upholding these values, we can maintain a humble and grounded approach, ensuring that trust, respect, originality, family, and continuity are interwoven into the very fabric of our workplace."

DESIGN *guidelines*

In the Mobitec design department, our creative minds Dominique, Pierre, Vincent and Jana lend their signature to our products to form an identity that seamlessly combines aesthetics, comfort, personalization and our originality.

10 Dominique Amodei, a cornerstone of the Mobitec family since 1993, is the luminary behind the Design team. For him, impeccable design is paramount. "A chair can never be too heavy, nor uncomfortable. However, it must have character and ensure durability. As for the aspect of being beautiful or not, that's a matter of taste."

Reflecting on the early days, Dominique recalls the challenge of adhering to strict rationalization. "I was supposed to be satisfied with panels of certain dimensions, wood of certain thicknesses... and produce as little waste as possible!" This challenge birthed innovation as he, alongside the founder Herbert Rom, devised a "sitting machine" to fine-tune every millimeter of incline, seat height, and comfort, defining a year-long quest for both comfort and elegance.

Mobitec has always valued having an in-house designer. Over the years, we have expanded our creative force with a team of four designers, each possessing unique, complementary skills. Together, they collaborate seamlessly to develop the best products for the market, leveraging the expertise and savoir-faire of our colleagues in Poland.

Pierre Wegnez, another integral force in Mobitec's

Design team, sheds light on the essence of the Mobitec touch. "The Mobitec touch is primarily a notion of comfort! " Comfort takes center stage, with meticulous consideration given to the optimal combination of foams and springs for a plush seating experience. "Then, I would say that the Mobitec touch is also personalization". You have the freedom to choose the wood type, color, fabric, and for certain product even the zipper color at the back, ensuring that each piece becomes a unique reflection of its owner.

The journey from concept to creation is a meticulous one, lasting about a year. Pierre provides insights into the process: "The first step is to define the needs. Once we have written the major guidelines, we start sketching" The journey continues with 3D drawings, prototyping, and collaboration with skilled artisans to develop the perfect blend of structure, comfort, and upholstery. The path to the final product involves numerous prototypes; for instance, the Toro collection saw the creation of over 10 iterations. We invite you to explore the intersection of creativity and functionality. Each piece tells a story of passion, innovation, and an unwavering commitment to delivering not just furniture but an experience tailored to you.

CRAFTSMANSHIP *& production*

It is behind the scenes, where craftsmanship, technology and production become a captivating journey through precision and dedication. From the acquisition of raw materials and drying our wood to the final assembly, we handle every step of the manufacturing process at our three production sites. Environmental protection always remains one of our top priorities.

11 Strategically located within a 50 km radius in Poland, each of our three facilities play a unique role. In Mieroszów, we begin with wood procurement, followed by drying it ourselves to control the quality. After this, we start the machining, assembly, and finishing of frames. Jaworzyna specializes in the production of tables and metal frames for chairs and tables. Dzierżonów serves as the center for sewing and upholstering, doubling as a logistics hub for all our deliveries.

At Mobitec, furniture pieces are more than just products; they are the result of meticulous craftsmanship that spans every phase of production. Every detail is nurtured and cared for, from the initial design concept to the final touches, aiming to create furniture of timeless beauty and exceptional quality. Our commitment to excellence extends to our environmentally conscious practices, ensuring that each piece is not only a testament to skilled artisanship but also a responsible choice for a sustainable future.

We invite you to experience the essence of Mobitec – where every piece is crafted with passion and purpose, enriching your spaces with enduring elegance.

*Where the triad of Quality,
Resistance Tests, and
Comfort converge, we
redefine your seating
experience.*

Quality

At Mobitec, excellence begins with meticulous material selection and craftsmanship. The use of plywood, shaped under a press, exemplifies this, as it ensures the chair's strength while preserving its lightness. This material choice embodies comfort through its elasticity, offering a perfect equilibrium between firm support and adaptable flexibility. Such a unique blend allows the chair to conform to the user's movements, providing a secure yet forgiving base for ultimate comfort.

Simultaneously, our designs integrate solid beech and high-density fiberboard (HDF), achieving a harmonious balance between lightweight design and structural durability. The incorporation of traditional

QUALITY & *comfort*

tenons and mortises further ensures the furniture's strength and flawless finish. Moreover, No-Sag springs, known for their elasticity and lasting support, are employed in our chairs, sofas, and armchairs. This varied approach to designing comfort highlights the diverse ways Mobitec commits to delivering excellence in comfort and design across our range of products. For optimal back support and enduring comfort, elastic straps in a grid pattern grace the chair's back. The seat features layers of HR foam, polyether foam, and hybrid foams for comfort and longevity. Our commitment to environmental sustainability is reflected in OEKO-TEX Standard Class 100 certified foams, manufactured through eco-friendly processes.

Resistance Tests

Mobitec stands as a testament to stability, with each product undergoing rigorous internal testing adhering to DIN standards. Seating items endure 100,000 cycles for loads up to 110 kg, ensuring durability in demanding environments. Specific products resist loads up to 200 kg. Different features such as flame-retardant treatments, coatings resistant to disinfectants, moisture protection, light resistance, detachable covers, washable fabrics, certified durability, and custom or bespoke covers tailored to the customer's needs are designed to assist project planners in ensuring product hygiene and adhering to legal standards.

Comfort

Embrace a world of comfort and well-being where No-Sag spring systems grace many models, absorbing weight and enhancing the sitting experience. Elastic straps in the back contribute elasticity and resistance to deformation. Diverse foam options cater to different models, ensuring elasticity and a quick return to their original form.

In the symphony of Quality, Resistance, and Comfort, we invite you to take a seat and experience the artistry of seating redefined.

SUSTAINABILITY *strategy*

*At Mobitec, our
commitment to
sustainability goes beyond
environmental concerns; it
encompasses a profound
respect for people and the
enduring prosperity of our
company.*

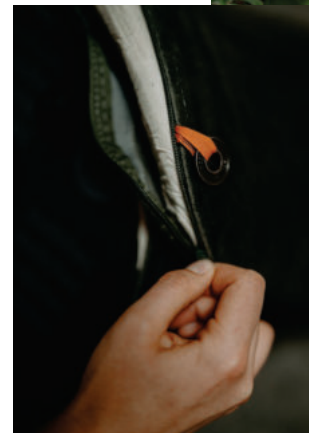

We believe in thriving over the long term, creating positive impacts on both the environment and society. Within this spirit, we've identified five pivotal areas where, as furniture manufacturers, we can make a meaningful difference for generations to come.

1. Perennity and well-being of all

As responsible economic actors, we lead by example, ensuring the well-being, development, and job security of our teams. Our goals for 2024 include having 80% of employees recommend Mobitec as an excellent workplace, achieving zero work-related sickness, and attaining an 80% success rate for our internal projects.

2. Eco-design and circularity

We embrace a new economic model by placing eco-design at the core of our strategy. Our commitment extends to providing circular solutions and adopting eco-friendly practices for our products. By 2025, our objectives include eco-designing all new products and introducing removable covers for the top 10 models, reducing our environmental footprint and production waste.

3. Climate

Recognizing the undeniable impact of human-caused greenhouse gas emissions on global warming. By 2030, our goal is to halve our CO2 emissions, contributing to the global effort to combat climate change.

4. Our fight against deforestation

Forests, vital for biodiversity and carbon absorption, face the threat of abusive deforestation. Mobitec is committed to reducing our impact on deforestation and promoting initiatives for sustainable forest management. We recognize the pivotal role forests play in maintaining ecological balance, and our actions reflect our dedication to preserving these vital ecosystems.

For us, sustainability is not just a goal; it's a journey towards a future where environmental consciousness, social responsibility, and economic viability merge. Together with our valued customers and suppliers, we forge ahead, creating a positive impact that echoes through the realms of furniture production and beyond.

SUCCESS stories

*Now we want to unveil
our success stories across
diverse worlds — from the
sophisticated ambiance
of Horeca establishments
to the dynamic energy of
modern offices and the
comforting embrace of
care facilities.*

Each project reflects not just furniture placement but a deliberate curation of experiences, where Mobitec collaborates to craft environments that transcend mere functionality.

Horeca Projects

Hotel AEON, Soprabolzano

Hotel AEON, owned by Max Ramoser since 1972, embodies a unique adults-only retreat in South Tyrol. Our Moods and Bolero collections adorn the restaurant, lounge, and luxurious rooms, creating a seamless fusion of old-world charm and contemporary comfort in this sun-kissed haven.

Football Lounges and Roland Garros

Mobitec's presence extends to renowned football lounges, including FC Bayern München's Allianz Arena and Lask Linz's Business Area (over 1700 chairs deliver comfort & style to this lounge). Additionally, our brand graced the 1928 Restaurant on the Roland Garros Grounds during the French Open 2023.

Sympathiehotel Fürstenhof, Bad Kreuznach

Stylishly refurbished in 2021 by Ziefleko, the Sympathiehotel Fürstenhof in Bad Kreuznach exudes modern elegance and comfort. Lena and Moods 101 chairs grace the lobby and restaurant, creating an atmosphere of well-being, elegance, and comfort.

Office Projects

European Commission Offices

European Commission offices boast elegance with Mobitec chairs from the Soft & Soda and Mango collections. The stylish and comfortable selections enhance the ambiance, reflecting a commitment to quality and design excellence.

Plieger Groep, The Cath

By Thimble's vision transformed Plieger Groep's office within The Cath into a dynamic, vibrant space. Elegant Trava tables and Toro/Moods chairs embody warmth and style, creating an inspiring hub for meetings and exchanges.

Buitenplaats Kameryck

Just outside Utrecht and Amsterdam, Buitenplaats Kameryck stands as a tranquil conference oasis. Pamp chairs in serene blue offer comfort and flexibility, providing a calm setting for productive meetings.

Care Projects

Reha Zentrum, Oldenburg

Collaborating with Bösch Ladenbau, the Reha Zentrum in Oldenburg showcases a luminous canteen furnished with Moods chairs, seamlessly blending with the space's design elements.

Cadiz Retirement Home

Salens furnishes the Cadiz retirement home with Mood 41, Mood 95, and Pamp chairs, along with Pamp coffee tables. This meticulous selection creates a contemporary and comfortable living environment for the residents.

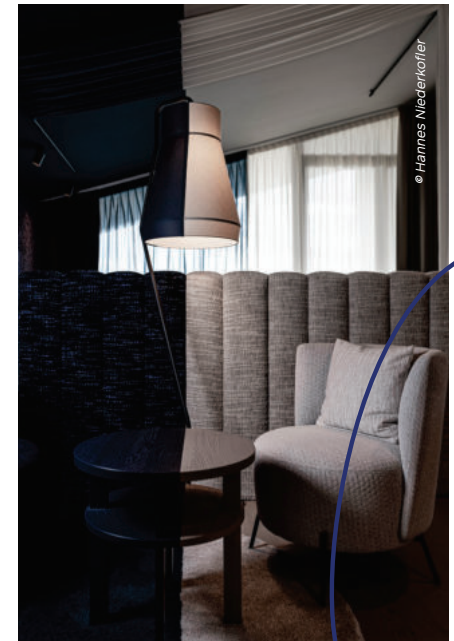

Huize Sint Anna Well-being Campus

The Lodenaken brasserie within the Huize Sint Anna well-being campus radiates warmth with Lindsay chairs in golden tones. Dols elegant choice complements the space's ambiance, fostering a sense of community and openness.

Each success story unfolds as a manifestation to our commitment to creating memorable moments of well-being.

Hotel AEON

Cadiz Retirement Home

Plieger Groep, The Cath

are you ready ?

Welcome to the immersive world of Mobitec, where every page of our catalogue is a demonstration to the art of creating moments of well-being. Our journey began in 1990, driven by a passion to craft furniture, enriching lives with experiences that linger in the heart and memory.

Now, let's dive into the heart of our catalogue where each page unveils the essence of our collections.

Structured with meticulous attention to detail, our catalogue invites you to explore our diverse collections, each carefully crafted to cater to your unique tastes and preferences.

Each family of products is thoughtfully presented across four pages, offering a glimpse into the essence of its design and purpose. Seamlessly integrated within these pages is a dedicated technical card, providing you with all the essential details you need to make informed decisions. From dimensions to materials, we ensure transparency every step of the way.

At any moment, if you wish to learn more about a product family, simply scan the QR code provided on the page, and you'll be seamlessly directed to the landing page of the respective collection.

But our catalogue is more than just a showcase of products; it's a journey of inspiration and discovery.

As you flip through the pages, we invite you to immerse yourself in the soulful experience of Mobitec furniture. Let each picture spark your imagination and ignite a sense of possibility. Whether you're furnishing a home, a restaurant, a hotel, or an office, we are here to accompany you on your journey to creating spaces that reflect your personality and enhance your everyday experiences.

Thank you for choosing Mobitec as your partner in creating moments of well-being.

October 2023, Anavyssos

A man with curly hair and sunglasses stands on a rocky cliff, looking out over a vast, cloudy sky. He is holding a large, dark, rectangular cushion. A small, modern chair with a metal frame and a cushion is placed on the cliff next to him.

on cloud number nine

CHAIR: COSY C0110

Step into a world of comfort with our inviting Cosy collection, featuring a soft embrace and plush seating that sets the standard for relaxation and style.

The backrest cushion that can be removed and re-positioned opens the way for many different configurations. Rested against the metallic structure, it provides a **shallower seat while revealing the backrest's shape**. As the cushion also has an opening, it can be placed over the metallic backrest to offer a **larger seat and optimal back** support resulting from its increased height.

Let your thoughts run free.

CHAIRS: CUORI C0110, C0212 TABLE: MALAGA T0100

Embodying comfort and design, the collection's name is inspired by the Finnish word for shell, "Kuori".

The unique gap between the backrest and seat enhances support and **ease of handling**, especially in the **PLUS version's ample proportions**. Available as a chair or armchair, Cuori is perfect for any setting, from casual bistros to enchanting dining rooms.

Its standout feature, a decorative **reverse zipper**, allows for **customization with 38 color** options, enabling a personalized touch of style.

Never a dull moment together.

refined simplicity

CHAIRS: *SLIM C0110, C0212* TABLES: *BARCELONA T0100*
SIDE TABLES: *DOT T0100*

The Slim collection embodies sophistication, offering simplicity at its peak of comfort and style.

Thanks to the **fine** and **lightweight** design of its seats, it isn't hard to tell where the Slim collection got its name from. But having a Slim seat doesn't make this chair any less comfortable. Quite to the contrary! Because its seat was fitted with No-Sag springs, the Slim chair actually offers a **superior level of comfort**.

come together

Trava is a collection of tables celebrated for their refined sophistication and seamless design.

Crafted from **solid or rustic oak**, each table features **smooth edges reminiscent of a river stone**, evoking a natural sense of sophistication. Catering to enthusiasts of minimalist design, the table is available **with a Fenix tabletop option**.

Designed for both **work and leisure**, Trava tables cater to your needs with accessibility in mind. Specifically designed versions for **conference rooms and workspaces**, the **Bachmann Top Access** can be equipped with CONI connector strips. The table versions without top access or cutouts are equally suitable for catering areas or **private dining rooms**, providing versatility for any environment.

At Mobitec, our fundamental principle is to offer a highly customizable product that can adapt to all personalities, projects, and interiors.

With a wide range of metal finishes, wood tones, fabric options, and Fenix finishes, our products can truly unfold in a thousand different facets. Our extensive palette of colors, textures, and materials is a playground for your imagination and your interior design vision.

For us, well-being goes beyond comfort; it's about having furniture that reflects our lives, our tastes, our values and the essence of our projects. That's why we design and offer a product that truly becomes yours after choosing the finishes.

If you're looking to align your furnishing project with sustainability principles or simply enjoy playing with

color and texture variations, we offer removable chair models in the following product families: Neo, Pure, Vigo, Manhattan, Shanna, Slim, Rossini and Cuori. This information is also available in the technical sheet of the corresponding product family.

But what truly sets Mobitec apart is our commitment to crafting furniture that goes beyond mere function; it's about creating moments of well-being. Our finishings collection isn't just about selecting colors and textures; it's about curating an experience that resonates with you on a deeper level. It's about infusing your space with personality, warmth, and character, transforming it into a reflection of your unique identity.

FINISHING *collections*

Within our textile assortments, we feature almost 40 collections of upholstery fabrics, each offering more than 10 color options, ensuring versatility and compliance with project standards and requirements. No matter the specifications of your project, we'll have a fabric, faux-leather or leather that perfectly suits it.

If you don't find what you're looking for in our fabric collections, we also work with your own fabrics. For more information on this, please contact our sales department.

In our finishings collection, you'll also find a spectrum of possibilities, from more than 20 different metal finishes that exude modernity and elegance to over 50 wood tones that offer warmth and sophistication. Our Fenix finishes, available in more than 5 shades, offer durability and versatility, perfect for high-traffic areas where both style and functionality are paramount.

Each finish tells a story, inviting you to explore different facets of your personality and design aesthetic. Whether you prefer the timeless charm of natural wood or the contemporary allure of matte black, our finishings collection has something for everyone.

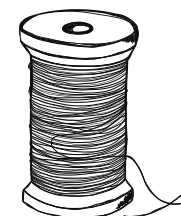

Moreover, we offer various types of gliders to perfectly adapt to your floor type, ensuring our products harmonize seamlessly with your space, whether at home or in your project. You just have to choose the appropriate glider for your floor type. Do you have tile, natural stone, or a hard floor? Opt for plastic gliders.

For carpeted floors, metal gliders are ideal. And if you have hardwood flooring, felt gliders prevent scratches. Our gliders are discreetly offered in either white or dark brown, depending on the color of your chair's base.

At Mobitec, we believe that furniture is more than just objects; they're an expression of who we are and how we live. That's why we're proud to offer a finishings collection that empowers you to create spaces that inspire, delight, and comfort. So go ahead, explore our finishings collection, and embark on a journey of self-expression and well-being.

For more information and to explore our entire finishings collection, please refer to our 2024 Finishings Catalog, available in print or online [here](#) :

thank you

As we conclude this catalog, we would like to express our sincere gratitude to you for the time and attention you have dedicated to this travel narrative.

These pages were more than just a compilation of furniture; they served as windows to the breathtaking landscapes of Greece, where our tables and chairs told their unique stories.

Special thanks to all those involved in bringing this project to life – the creative minds, the crew behind the camera, the designers seamlessly blending aesthetics and functionality, the organizers thoughtfully selecting each location, and the teams passionately working on every detail.

This catalog is the result of collective dedication, and we extend our appreciation to each individual who contributed.

May this logbook inspire and bring the magic of Mobitec furniture in your spaces.

We look forward to continuing our journey together, discovering new adventures, and creating lasting memories.

Warm regards,

— *the Mobitec Family*
